RE: Systems Administrator

Dear Hiring Manager,

I have taken the opportunity of contacting your company regarding a possible vacancies in your IT department as Systems Administrator role. For several years I have focused my career path and academic pursuits on Bachelor of Computer Science and completion of Bachelor of Computer Science program with Poltava University Economics and Trade (Institute of Mathematic Modeling). My personal philosophy is rooted in empowering others and creating a positive perspective of life circumstances.

As a huge fan of WIESENHOF, I was really excited to have seen the best quality chickens in Germany is produced your company. I do believe that I'm a great match for the job and a great fit with your organization.

With a genuine and nurturing nature, combined with a professional and ambitious approach, I possess the primary skills needed in my field, including installing programs, performance monitoring and troubleshooting. Additionally, collaboration and critical thinking are part of my skill set, with proficiency in leadership. Experience in interacting with diverse populations has given me in-depth understanding and awareness of differences in both individuals and organizations. These qualities will contribute to WIESENHOF's mission while positively highlighting the professionalism and competencies in its employees.

For further details of my qualifications, background, and academic history, please find my resume attached. I am confident that I can contribute positively to the Systems Administrator role and I welcome the opportunity to speak with you at your earliest convenience.

Yours Sincerely,

Abdourahman Bah

Bah Abdourahman

Professional Goals

I aim to attain a challenging System Admin Entry position in the field of System Administrator. I hope to be part of a team that solves problems using technological development tools. I am passionate about technology and would like to acquire more knowledge as possible.

Current control is carried out during lectures, seminars (practical, laboratory), and verification of individual tasks, home assignments, and current module works. The current success of students is estimated using national scale ratings.

Final control assessment of students' knowledge on the discipline is in the form of final module control (CMC, test) and examination.

The final grade on the discipline in the form of control as a test (CMC) is the overall grade for the current module control.

The final grade on the discipline in the form of control as examination is determined by the course average estimate and assessment by exam. The total final grade for successful completion of the course cannot exceed 100 points.

Student's progress assessment during the implementation and defending of the course, degree work (project) as well as the report on practices is carried out on a 100-point scale.
